

AutoClean®

Continuous Fixture Cleaning and Drain Maintenance System

technical concepts
Innovative Hygiene Solutions

- Enhances Cleanliness and Image Round-the-Clock
- Easy In-Line Installation
- World-Class Reliability in Fixture Cleaning and Drain Maintenance

AutoClean®

The AutoClean System delivers powerful formulas that attack and eliminate odors at the source, automatically cleaning fixture surfaces, day and night. Equipped with either Purinel® for cleaning fixtures and maintaining drains or with Cleaner and Deodorizing for clean fixtures with a pleasant scent, AutoClean Systems eliminate odors and ensure that toilets and urinals are clean, odor-free and presentable.

Enhances Cleanliness and Image Round-the-Clock

AutoClean Systems are uniquely designed to dramatically improve the overall cleanliness and image of any washroom. Every system eliminates the breeding ground of bacteria and odors at the source.

Easy In-Line Installation

Installing an AutoClean system is simple, with no need to shut off the water and easy drill-through chrome connection kit. In-line installation supplies cleaning formula to the hard to reach areas, such as rim holes, and ensures the whole fixture is cleaned.

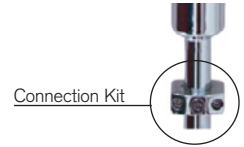

World-Class Reliability

Proven programmable dispensing technology delivers consistent metered dosage of formula's that prevent build up of calcium on pipes and scaling, providing round-the-clock fixture and drain maintenance.

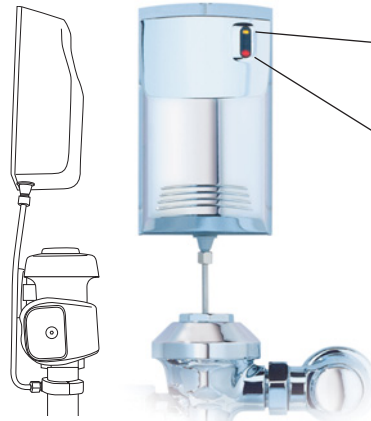

AutoClean LCD Features:

- Visual Battery Gauge (2 "D" Cell alkaline batteries last up to 3 years)
